

# Right-Sized Shipping Boxes Made In Your Facility On Demand

- Cut Shipping Costs
- Eliminate Box Inventory
- Streamline Packing
- Handle Variable Product Shipments With Ease

Every **Box On Demand** system is designed to fit your application. Through our consultative process, we learn about your packing needs and goals. Our experienced team designs the optimal system for your application; maximizing productivity and cost savings.

Ideal for operating environments where variable or oddly shaped shipments are the norm.

- Fulfillment/E-Commerce
- Manufacturing
- Door/Blinds
- Home Furnishings
- Cabinets & Woodworking
- Large Format Printing & Books
- TV & Electronics Overboxing
- And More

## CNC Box Making Machines

### NextMode Series

High-speed industrial platform  
Up to 4 lateral fanfold sources and 6 inline  
Optimus™ software suite  
WMS & ERP Integration

### Compact Series

Board width ranges from 55" to 98"  
Small footprint  
Handles double & single wall corrugate  
WMS & ERP Integration

# Systems engineered for **EVERY** application

## Automatic Gluers

### RL-G Series

Automatic gluing process

Single auto reverse for through feed for batching

### IL-G Series

Automatic glue joint length detection

Optional multiple lane set up

## Matrix™ Dimensioning Table

Quickly and accurately measure LxWxH dimensions

Volume analyzing software determines optimal box

Save & recall SKUs for frequent use

## BOD® System

A complete BOD system is sized and selected based on box requirements and throughput needs. Systems can include a Matrix Dimensioning table, BOD machine with automatic gluer and more. Our packaging specialist will help determine the best system for your application.

## About Us

Box On Demand® serves a broad spectrum of customers across fulfillment and manufacturing with machines and systems designed for making right-sized corrugate boxes on demand. As a division of Plymouth Packaging and partner with Panotec of Italy, Box On Demand provides heavy-duty, reliable box making machines supplied with high-quality ECT corrugate fanfold. Our company started more than 25 years ago as the dynamics of industry were shifting from mass standardization toward greater customization. Box On Demand and Panotec work together to keep our machines and software aligned with the unique and changing needs of you, our customers.
