BOX ON DEMAND[®]
Any Box. Sized Right. *Every Time.*

Any Box. Sized Right. **Every Time.**

Box On Demand® Systems offer flexibility in floor packing configurations to fit a range of operating styles. Our packing specialists work with you to assess the best layout for your order type, physical space, and throughput requirements.

From operator-driven order scanning to fully integrated WMS and web services integrations, a Box On Demand machine is engineered to deliver the right-sized box when you need it. We provide you a heavy-duty box-making machine with a high degree of computing power. The BOD® software suite drives a series of heads that quickly cut and crease the fanfold corrugate to produce a wide range of box types specific to your needs.

Operating Styles

- Pack at a line
- Pack away from the machine
- Small batches packed at a machine
- Inbound packing
- Pick to box
- Pick to cart

“Pack at a line” configuration shown.

INCREASE THROUGHPUT
WHILE CUTTING COSTS

Virtually eliminate SKUs of premade boxes that take up valuable warehouse space. Take control of special handling areas of your warehouse that require over-boxing, contain fragile items, are heavy, or have other attributes which make them difficult to pack quickly and effectively by standard means.

BOD® Customers Have Realized a

25%

Decrease in Packing Time and Reduced Labor

Zero Upfront Capital Costs

You do not buy the machines from us, therefore you have no capital cost for purchase. We own and maintain the machines for you. Purchase only the fanfold corrugate you need to make the volume and type of boxes for your orders.

We Partner with You

We support your packing needs with a 24/7 technical service hotline and on-site training to ensure your staff is fully comfortable with the equipment so you can focus on your business and your customers.

Right-Sized Boxes On Demand *REDUCE DIM CHARGES AND WASTE.*

20%
Reduction per L x W x H Yields:

49% Overall Volume Reduction

34% Less Corrugated Material

ABOUT US

Box On Demand® serves a broad spectrum of customers across fulfillment and manufacturing with machines and systems designed for making right-sized corrugate boxes on demand. As a division of Plymouth Packaging and partner with Panotec of Italy, Box On Demand provides heavy-duty, reliable box-making machines supplied with high-quality ECT corrugate fanfold. Our company started more than 25 years ago as the dynamics of industry were shifting from mass standardization toward greater customization. Box On Demand and Panotec work together to keep our machines and software aligned with the unique and changing needs of you, our customers.
